

Catherine Upfold , MRF-
awarded 2015, writes...

It's hard to quantify the impact that the Martin Read Foundation, and indeed Martin himself, had on my musical development. Despite not having studying music (I studied chemistry at the University of Bath) I firmly believe that musical education enabled me to gain confidence and creative thinking that has benefitted me enormously in my both degree and my personal development. Composition will always be an important creative outlet for me.
