

## Joel Knee - MRF 2016

I was very lucky to have the support of the Foundation at pivotal time in my musical life.

It provided me an opportunity to write and record music in a much more serious and advanced way than I was used to, and more importantly it brought me into a community of great musical minds. These included peers in the Foundation, many skilled and inspiring mentors, and young musicians & composers through MRF-led workshops.

All of these things together were very influential in my decision to apply for music college.

I am currently in my final year of a Jazz BMus at the Royal Academy of Music, where composition has been an important part of my experience.
